The MicroTIF Approach

James Tischler State of Michigan - Land Bank Authority

1

TIF Benefits & Issues

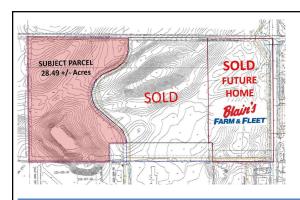

Advantages:

- Generates new revenue(s).
- Local program with relative autonomy from state and federal intervention.

Disadvantages:

- Interjurisdictional conflict between governments.
- Another level of local bureaucracy.
- Financial problem if growth doesn't match projections.

5

Parcel-Based TIF

Subject Property and Adjacent/Contiguous that comprises a Project

Micro-TIF

A Single Subject Property (or portion of) that comprises a Project

Key Elements

- Eligible Property:
 - Qualified by one or more criterion
- Eligible Activities:
 - Costs Extra-Ordinary to Normal
- Development Project/Plan:
 - Project a developer wants to undertake, with plan
- Work Plan:
 - Identifies specific eligible activities and cost details
- TIF Plan:
 - Eligible activities to be paid and how they are financed

7

Example Project

- Eligible Property 14-acre riverside parcel
 - Contaminated Soils
 - Non-Contaminated Fill
- Eligible Activities (Work Plan):
 - Environmental Assessment & Due Care
 - Site Preparation Piers/Grade Beams

\$886,500 \$610,110 \$1,496,610

- Development Project/Plan:
 - Retail/Office Project 4 Buildings and Land Improvements
 - \$11,000,000 True Cash Value at Build-Out

Housing Subsidy as TIF-Eligible Activity

 "Assistance...in selling or otherwise conveying...property owned or under control of a land bank fast track authority..."

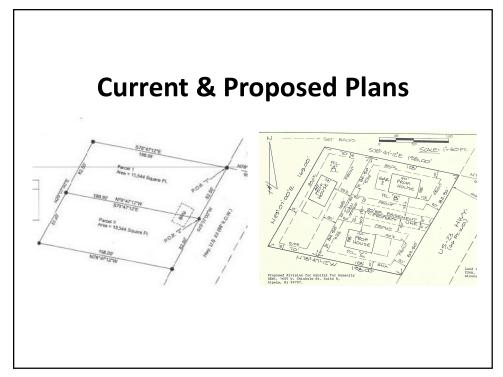

Cost of unit Construction/Rehabilitation \$140,000
Qualified Purchaser – First Mortgage 120,000
Unfunded Gap \$20,000

- To sell the unit, a concession of value (subsidy) is required.
- The Concession is "assistance in selling" and therefore TIFable.

Redevelopment Costs

Phase I ESA \$3,000 Demolition \$4,500 Utilities \$3,500 Site Excavation/Grading \$4,500 Site Engineering* \$3,500 Contingency (15%+) \$1,000 Subtotal \$20,000 Seller Concession \$15,000 Plan Preparation \$5,000 TOTAL \$40,000

Eligible uses of incremental tax revenues from a district include:

- Costs inside the AHTIF district: Capital and operating costs of affordable housing and public infrastructure improvements, related soft costs, support services for residents of the affordable housing, and costs of recreational and child care facilities.
- Costs outside the AHTIF district directly related to or made necessary by the establishment or operation of the district, and then only to a proportional extent.

- At least 25% of the district area must be suitable for residential use, and development within the district must be primarily residential.
- At least 33% of the housing units in the AHTIF district must be for households earning no more than 120% of area median income.
- The affordability of rental units must be maintained for at least 30 years, and the affordability of homeownership units must be maintained for at least 10 years.

Statutory Reference: 30-A M.R.S.A. §§5245-5250-G

MicroTIF Summary

- Proven Redevelopment Financial Vehicle
- Generates Extraordinary-Cost Financing (Self or Lender)
- Produces Monies for Local Program Administration
- Produces Monies for Local Reserve(s)
- Scales to Cost/Revenue Needs
- Specific-Parcel Focus & Limited/Minimum Capture Term Returns Site to Tax-Paying Status
- Benefits from Securitized Developer Performance

Harness the Market to Clean Up & Generate Resources
